CONCEPT

DESCRIPTION

BUDDY WAS DESIGNED TO KEEP A USER IN A GOOD MOOD THROUGHOUT THE DAY

THE WAY THAT BUDDY WORKS IS BY PROVIDING THE USER WITH A LIST OF THINGS TO DO TO STAY ENTERTAINED, EAT RIGHT OR ESCAPE THE CHAOS OF DAY TO DAY LIFE

THE PURPOSE OF BUDDY IS TO ALLOW THE PERSON USING IT THE ABILITY TO KEEP THEIR PERSONAL VIBRATIONS OPERATING AT A HIGH FREQUENCY IN ORDER TO FEEL GOOD THROUGHOUT THE DAY

MOTIVATION FOR DEVELOPMENT

AS A TEAM, UPON DISCUSSING OUR GROUP PROJECT AMONGST OURSELVES

WE NOTICED THAT THE AVERAGE HUMAN BEING EXPERIENCES STRESSFUL SITUATIONS
ON A DAY TO DAY BASIS WITHOUT EVER TAKING THE TIME TO SIT BACK & SMELL THE
ROSES

WITH THAT "THOUGHT" BUDDY WAS BORN

WE WANTED TO CREATE AN AI THAT WAS ABLE TO POP IN FROM TIME TO TIME &
REMIND US TO SLOW DOWN & JUST ENJOY THE MOMENT
